

Questions Dr. Balil Dawoud

- What can you/your company/institution do or offer in which time period for which specific field (basic and/or applied research)?
- What would be the best consortium/cooperation partners you would like to work with?
- Please define from your point of view which materials are quite close to the market and just need engineering (/reasons would be highly appreciated.
- Please specify according to your expertise which materials need basic research and if possible, give your estimation time and funding required achieving such a basic research.
- Are you planning to participate in Annex 24 Task 42?
- Any feedback/comments regarding ZAE Symposium?
